

## Vacuum packers table top models

# VP-960

*Professional, reliable and  
modern vacuum packer  
machines*

### Technical Information

- Entirely made in stainless steel.
- Transparent lid.
- Double sealing
- Soft air
- Digital panel
- Easily removable wireless sealing bars.
- Inlet plate for height adjustment of the vacuum chamber
- Easy maintenance.
- Pump 25m<sup>3</sup>/h.

### Options

- Gas flushing entrance.
- Electric bag cut-off.
- Sensor control panel
- 20m<sup>3</sup>/h Busch pump

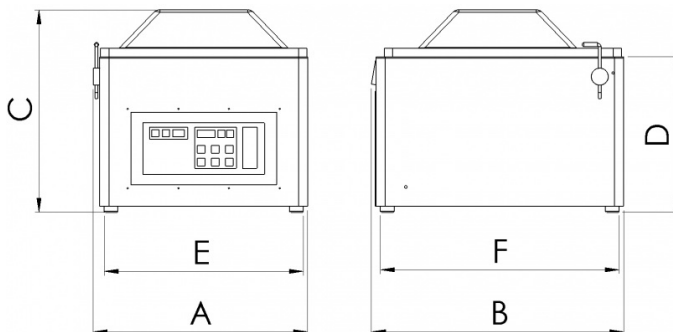

### Accessories

- Inclined inlet plate for packaging products with liquid or sauce
- Connector for external vacuum container.

## Measures

A	490 mm.
B	580 mm.
C	470 mm.

## Control Panel

Time control panel without gas

- Digital control panel.
- Vacuum control by time.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- Monitoring step by step of the cycle through led.
- Vacuum gauge.

Time control panel with gas

- Digital control panel.
- Vacuum control by time.
- Gas flushing entrance control by time.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- Monitoring step by step of the cycle through led.
- Vacuum gauge.

Sensor control panel with gas

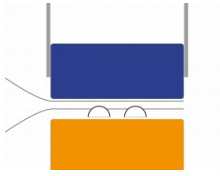

- Digital control panel.
- Vacuum control by sensor.
- Gas flushing entrance control by sensor.
- Sealing time regulation.
- Soft-Air.
- VAC-STOP push button, finish the vacuum and continue the process.
- VAC+ push button, additional vacuum time.
- Maintenance push button control.
- 99 memory positions.
- Monitoring step by step of the cycle through led.

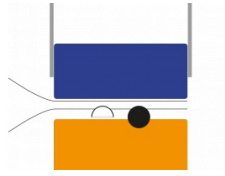

## Welding Type

Double sealing

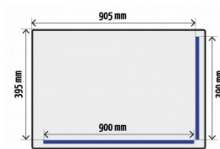

Sealing + cut

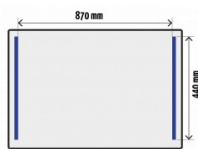

## Tray Type

VP-960 AB

VP-960 BB

## Connector for vacuum
